

COMPATIBLE

VEGAN*

10 ml / Cosmetics

durimplant

The implant care gel

Prevents peri-implantitis and maintains dental implants, also suitable for daily prophylaxis at home, on vegetal basis.

- ✓ Takes care of oral gums and mucosa and prevents inflammation around the implant
- ✓ Supports the healing of newly placed implants and extends the lifespan
- ✓ Promotes natural wound healing and tissue regeneration
- ✓ Long-lasting, water repellent shield, protects against bacteria, chemical and mechanical irritation
- ✓ No teeth discoloration or taste impairment due to balanced chlorhexidine content

Also suitable for high-risk patients with a weakened general condition:

- ✓ e. g. diabetics, patients undergoing cancer therapy, smokers, rheumatics, pregnant women

* Contains natural ingredients on vegan basis: **comfrey, sage, peppermint and thyme**

- ✓ REMOT implant
- ✓ parodur Gel
- ✓ parodur liquid

ACCORDING TO THE RULES OF ART

AGAINST APHTHAE

VEGAN*

20, 5 ml / Medical Device (MD)

LEGASED natur

The oral wund dressing

Film-forming remedy from herbal tinctures for versatile use in the mouth and throat area.

- ✓ Versatile: i. a. painful aphthous ulcers/canker sores and denture pressure points
- ✓ Protects against further chemical and mechanical irritation, relieves existing pain: long-lasting adhesion
- ✓ Film-forming remedy reduces the ingress of bacteria and food debris into oral wounds & supports wound healing

LEGASED nature is particularly effective after meals and before bed:

- ✓ Dab wound area dry with a paper tissue because LEGASED natur sticks better on dry oral mucosa
- ✓ Apply the solution generously with cotton swabs or fingertip, then rinse with water
- ✓ Through the contact with water, a thin membrane is formed, that protects the wound area in the mouth lika a bandage

* Contains natural resins on vegan basis: **Myrrh, benzoin, colophony**

ACCORDING TO THE RULES OF ART

REMOT

The classic cleaning paste

Prophylaxis paste for professional dental cleanings with a medium RDA value.

75 ml / Medical Device (MD)

- ✓ Gently removes dental plaque
- ✓ For final polishes
- ✓ No splashing
- ✓ Natural peppermint flavour
- ✓ Environmentally friendly glass jar

Contains chlorhexidine, fluoride-free

REMOT implant

The classic soft cleaning paste

Implant-cleaning-paste for professional dental cleanings and final polishes, with a low RDA value (<7).

27 g / Medical Device (MD)

- ✓ Professional cleaning of all delicate surfaces and final polishes
- ✓ Also suitable for ceramic implants/implant abutments
- ✓ Gentle on surrounding gums
- ✓ Protects against gum diseases such as peri-implantitis
- ✓ Natural peppermint flavour

Contains chlorhexidine, xylitol, fluoride- and pumice-free

parodur Gel

The periodontitis prophylaxis gel

Prevents inflammations of the periodontium („periodontitis“), for daily prophylaxis at home, on herbal and vegan basis, available in lime and mint flavour.

- ✓ Cares and prevents inflammation of the periodontium
- ✓ Promotes natural wound healing and tissue regeneration
- ✓ Long-lasting water-repellent shield against bacteria, chemical and mechanical irritation
- ✓ No teeth discoloration or taste impairment due to balanced chlorhexidine content

Also suitable for high-risk patients with a weakened general condition:

- ✓ e. g. diabetics, patients undergoing cancer therapy, smokers, rheumatics, pregnant women

* Contains natural ingredients on vegan basis: comfrey, chamomile, sage, thyme, limonene or mint flavour

parodur liquid

The gentle periodontitis prophylaxis fluid

Ready-to-use mouth rinse solution for preventing gingivitis and periodontitis, also suitable for daily prophylaxis at home, on vegetal basis.

- ✓ Prevents gingivitis, periodontitis /peri-implantitis in combination with parodur-/durimplant-gel
- ✓ Reduces bacterial plaque and prevents its reformation
- ✓ Helps to avoid caries if regularly applied
- ✓ Pleasant taste, easy to apply and can be used permanently

Also suitable for high-risk patients with a weakened general condition:

- ✓ e. g. diabetics, patients undergoing cancer therapy, smokers, rheumatics, pregnant women

Contains xylitol 0.05 %, chlorhexidine, mint, fluoride, alcohol-free

People with a weakened general condition appreciate our prophylactic cosmetics for their special compatibility.
